Amazing relief! Designed by a dermatologist, the CNH Pillow has become the most widely recommended treatment for Chondrdermatitis Nodularis Helicis (CNH). With the ear positioned over the hole, the fundamental cause of the painful sores - pressure - is removed, and the tender ear is allowed to heal.

Relieves Painful Pressure Sores For a Good Night's Sleep

A durable, quilted, washable cover is made of cotton and polyester with soft, non-allergenic filling. The pillow is made of molded poly foam. Design fits most any physique.

*Family owned business since 1990
